

Fences

Fences. In any residential district, no fence or continuous planting shall be maintained in any front yard; no fence or continuous planting over six (6) feet in height shall be maintained in any side yard; and no fence or continuous planting over six (6) feet in height shall be maintained in a rear yard. In addition, in any residential district, no fence or continuous planting shall be maintained within thirty (30) feet of the traveled portion of the road on any corner lot or dual frontage lot which would impair the sight distance of the operator of a motor vehicle. No fences are permitted in the public street right-of-way.

Obstructions to Vision at Street Intersections Prohibited

On a corner in any residential district, nothing shall be erected, placed, planted or allowed to grow in such a manner as to impede vision between a height of two and one-half feet (2 1/2') and ten feet (10') above the centerline grades of the intersecting streets in the area bounded by the traveled portion of the road of such corner lots and a line joining points along said street line twenty five feet (25') from the point of intersection. Nothing herein shall be construed as imposing any duty or standard of care toward any other persons or property.

Proposed Definition for the traveled portion of the road:

The part of the street or roadway that is improved, designed, or ordinarily used for vehicular travel, excluding shoulders, ditches, and sidewalks. For purposes of measurement, the traveled portion shall be measured from the back of the curb or, where no curb exists, from the edge of pavement.
