

Welcome to the City of Peosta, Iowa

The City of Peosta works to maintain a friendly, safe, clean, diverse, and growing community large enough to remain economically viable and provide its residents with a modern infrastructure, yet small enough to maintain a strong sense of family and community. To accomplish this, the City vigorously seeks opportunities to help the private sector build the local economy through commercial, industrial, or residential projects. Special consideration is given to economic development projects which will create new jobs, increase property values, and/or generate new revenue within the Peosta community.

The Peosta TIF District incentives for economic development are negotiable and subject to an evaluation of the overall value, potential impacts, and availability of funds. Any TIF District assistance provided to private developers is determined at the discretion of the City Council and subject to approval of a written redevelopment agreement.
